1.8. Competition Rules

The Shotgun Shooting competition will be held in accordance with the following documents:

- International Shooting Sport Federation (ISSF) Official Statutes: Rules and Regulations, which can be found at www.issf-sports.org;
- Guidelines of ESC, which can be found at www.esc-shooting.org.

1.8.1. Scoring

In Shotgun Shooting events a hit will be declared when at least one visible piece is seen by the referee to fall from a target or if powder emerges from the target after a shot. In each event, no scores from the qualification round will be carried forward to the Final to determine the rankings.

1.8.2. Tie-Break Procedures

Ties occurring after the qualification phase either to enter the final or to decide the qualification ranking will be broken by shoot-offs according to the ISSF Official Statutes, Rules and Regulations. Ties occurring during the finals for the 6th, 5th, 4th or 3rd place will be broken by the qualification ranking (highest bib number will be eliminated). Ties for the 1st/2nd place will be broken by shoot-offs.

1.8.3. Penalties/Disqualification Rules

If an Athlete disagrees with a Referee's decision regarding a particular target he/she must act immediately before the next Athlete fires, raising an arm and saying "PROTEST", and the Referee must then temporarily interrupt the shooting and after hearing the opinions of the Assistant Referees, make his decision. No protest will be accepted after the next Athlete fires. Other penalties/disqualifications will be in accordance with the ISSF Rules.

1.8.4. Protests and Appeals

Protests and appeals must be submitted within the specific times for each event, as stated in the ISSF Rules. Official results will not be published until any problems have been resolved.

1.8.5. Clothing and Equipment

Clothing and equipment used by athletes and other participants in the Shotgun Shooting must comply with the following documents:

- ISSF Official Statutes: Rules and Regulations, which can be found at www.issf-sports.org;

1.9. MINSK 2019 Advertising, Demonstrations and Propaganda Guidelines

The following Rules for the European Games are based on Rule 50 of the Olympic Charter. The IOC Rule 50 will apply in conjunction with the IOC Guidelines issued and in force at the 2016 Olympic Games:

- The European Olympic Committees (The EOC) determine the principles and conditions under which any form of advertising or other publicity may be authorised;
- No use of any Identification of the Manufacturer may be made in a conspicuous way and no form of advertising or other publicity shall be allowed in and above the stadia, venues and other competition areas which are considered as part of the European Games sites other than that relating to the contractual rights of the marketing partners of MINSK 2019;
- No kind of demonstration of political, religious or racial propaganda is permitted at any of the European Games sites, venues or other areas;
- No identification other than an Authorised Identification may appear on any item;
- Only one Identification of the Manufacturer per item shall be permitted;
- These rules and any other manuals, guides, guidelines or any other instructions issued by the EOC apply to all persons holding accreditation for the Games and are a pre-condition to the ongoing validity of that accreditation.

1.9.1. Manufacturer's Identification on Equipment and Clothing

Definition: 'Manufacturer's Identification' means the normal display of the name, designation, trademark or logo. The Manufacturer's Identification can only appear once on each piece. The standard graphic elements recognised by the WFSGI, e.g. 'adidas' three stripes may also be used within reason and subject to prior written agreement. Other identifications such as 'Goretex' and 'Dryfit' may also be used within reason subject to prior written agreement. The size of these may not be larger than the Manufacturer's Identification.

All approvals must be requested via brand@minsk2019.by till 20 May 2019.

- Other than the Manufacturer's Identification, produced according to the size guidelines shown below, and the standard graphic elements no form of publicity or propaganda, commercial or otherwise, may appear on persons or on any article of clothing or equipment worn or used by the athletes or other participants at MINSK 2019. It also includes, but is not limited to, for example, any form of body art, jewellery or contact lenses;
- Equipment: any Manufacturer's Identification used cannot take up more than 10% of the surface area of the equipment visible during competition up to a maximum size of 60cm². Exceptions may apply, subject to prior written agreement (brand@minsk2019.by);
- Headgear and socks: the maximum size of the Manufacturer's Identification allowed on any form of headgear and socks is 10cm². Headgear includes, but is not limited to hats, helmets, sunglasses and goggles;
- Armbands: one Identification of the Manufacturer per item, with a maximum size of 6cm²;
- Gloves: one Identification of the Manufacturer per item, with a maximum size of 8cm²;
- Clothing (e.g. NOC uniforms, competition clothing, tracksuits, T-shirts, shorts, sweat tops and sweat pants): the maximum size allowed for any Manufacturer's Identification on clothing is 30cm²;

- There is one exception: where a one-piece body suit is worn in competition, two Manufacturer's Identifications may be included – one above the waist and one below. These Identifications must not be placed next to each other;
- Shoes: the normal distinctive design pattern of the manufacturer may appear on shoes. The manufacturer's name and/or logo may also appear, up to a maximum size of 6cm², either as a part of the normal distinctive design pattern or separate to it;
- Technical gear: the maximum size of the Manufacturer's Identification on all technical gear, installations and other apparatus, which are neither worn nor used by athletes or other participants (for example, timing equipment and scoreboards), may be no larger than 1/10th of the height of the piece with a maximum of up to 10cm high, and no more than 10% of the surface space if otherwise is not approved by MEGOC and the EOC;
- In case of special rules adopted by ISSF, exceptions to the rules mentioned above may be approved by the EOC;
- Any violation of these rules may result in disqualification or withdrawal of the accreditation of the person concerned. The decisions of the EOC regarding this matter shall be final.

1.9.2. NOC Uniforms

The official uniforms of the NOCs may include:

- Symbols of the country (name of the country, national flag, emblem, etc.);
- Emblem of the NOC incorporating the Olympic rings where approved by the IOC;
- MINSK 2019 Logo;
- Emblem of the respective National Sport Federation (on competition kit only where permitted by the NOC).

The NOCs are requested to bring a sample of the competition uniform to the Technical Meeting of each sport for final check in order to avoid any problems

on the Field of Play (FoP).

NOCs should seek prior written approval from MEGOC for their uniforms before production begins. Pictures featuring the branding should be sent to brand@minsk2019.by for review and official approval.

1.9.3. Athlete Conduct

During MINSK 2019 Athletes' ongoing accreditation is conditional upon them not:

- Taking any sport equipment and/or national flag onto the podium and/or wearing sunglasses and headdresses during a Medal Ceremony;
- Making any kind of demonstration or promote political, religious or racial propaganda in any European Games venue or associated areas during the period of the Games.

1.10. Late Athlete Replacement Policy (LAR)

The deadline for Sport Entries of participating athletes for MINSK 2019 was 20 May 2019.

However, where urgent medical problems arise, or in other exceptional circumstances that are assessed on a case-by-case basis, the EOC may permit permanent replacement of one athlete with another only in the same sport, discipline and event.

The NOC of the replacement athlete had successfully applied for accreditation of the athlete prior to 28 February 2019 (accreditation application deadline). As such, the replacement athlete was registered for MINSK 2019 in the NOC's Athlete Accreditation Long List.

During MINSK 2019, it is the policy of the EOC that P-accreditations are not available.

Replacement of an athlete can only occur after consultation with the relevant

International Federation (IF) and/or European Federation (EF) and, when deemed necessary, by the EOC, an EOC medical expert.

MEGOC will offer an online LAR tool, which will allow NOCs to submit LAR requests after the Sport Entries deadline.

An additional information on the LAR request can be obtained from the MEGOC Sport Entries team:

- In AVL – SIC;
- By email: entries@minsk2019.by

The MEGOC Sport Entries Office will forward all received queries to the MEGOC Accreditation team and to the EOC accordingly.

It is effective:

- For non-medical replacements – from 20 May 2019 until up to 24 hours prior to the Technical Meeting or weight draw as appropriate for that event;
- For medical replacements – from 20 May 2019 until up to 2 hours prior to the Technical Meeting, or weight draw as appropriate for that event.

NB: The deadlines for medical and non-medical replacements are different.

For non-medical replacements, in order to keep changes to a manageable level and to support a sustainable level of resourcing within the MEGOC Sport Entries team, a limit on changes to an NOC delegation has been put in place.

Each NOC shall be allocated a quota for non-medical replacements based upon NOC's overall number of athletes:

Number of Athletes	Quota for Non-Medical LAR
From 1 to 10	1
From 11 to 20	2
From 21 to 50	5
From 51 to 100	10

From 101 to 150	15
From 151+	20

1.11. Doping Control

MEGOC is committed to delivering a world-class Doping Control Programme during MINSK 2019. Under the authority and direction of the EOC, the MEGOC Doping Control Programme will ensure the integrity of sport is upheld and protect the rights and health of the athletes. The ISSF Anti-Doping Rules will be respected.

The EOC Medical & Anti-Doping Commission in collaboration with ISSF is responsible for determining in advance the distribution and number of Doping Controls to be carried out throughout the Games period.

The EOC has the authority to test athletes for substances and doping methods (both urine and blood) prohibited by the World Anti-Doping Agency (WADA) anytime and anywhere from the date of arrival in AVL and up to the end of competition.

All analyses of samples will be performed at the WADA-accredited laboratory in Seibersdorf, Austria.

The selection of athletes may be targeted, random, based on the Athletes' final position in competition as well as intelligence or the ISSF Anti-Doping Rules.

MEGOC has appointed the National Anti-Doping Agency of Belarus (NADA) as the operational delivery partner for the Doping Control Programme. As the operational delivery partner, it will be responsible for sample collection, secure chain of custody and analysis at the WADA-accredited laboratory.

Further details on the Doping Control Programme and procedures at the European Games are available in the MINSK 2019 Doping Control Guide. Printed copies of the Guide will be distributed at the EOC Medical Commission Meeting.

If medical staff arrive after the due date, copies of the Guide can be collected at

the AVL Polyclinic.

Athletes selected for Doping Control will be notified in person and escorted to the Doping Control Station (DCS) by a Doping Control chaperone as soon as possible after the former have finished competing. It is the responsibility of the athlete to remain under continuous observation of the Doping Control chaperone after notification. The notified athlete may invite a team representative or team doctor to DCS along with them.

1.12. Sport Information

ESC General Secretary, Technical Delegate, Chairman of Judges, Technical Officials, MEGOC Shotgun Shooting Competition Manager and Venue Manager will preside over the meeting.

A maximum of two (2) representatives from each NOC can attend this meeting, accompanied by a LANS team member or an NOC Assistant, if necessary. They should bring with them the meeting agenda and their copy of the Team Leaders' Technical Manual.

4.3. Competition Procedures

4.3.1. Warm-Up Procedures

Each range will have Training and Dry-firing Area. All athletes must comply with the Warm-up and Call-up procedures detailed in the ISSF Rules and Regulations.

4.3.2. Accredited Team Seating

A seating area for athletes and team officials will be located at shooting enclosure.

4.4. Post-Competition Procedures

4.4.1. Leaving the FoP

All athletes must exit FoP via the Mixed Zone.

4.4.2. Post-Event Control

After the Daily Shotgun Shooting Programme is completed and the ranges have closed, all firearms and remaining ammunition must be returned to the Armoury. The Armoury will close two (2) hours after competition and/or training finishes on all ranges. An audit of all firearms will be conducted daily after the Armoury closes. Firearms and/or ammunition may not be withdrawn from the Venue and checks will be in place to ensure compliance with the rules.

4.4.3. Doping Control

Athletes selected for Doping Control will be notified in person and escorted to DCS by a Doping Control chaperone as soon as possible after the former have finished competing. It is the responsibility of the athlete to remain under continuous observation of the Doping Control chaperone after notification.

4.4.4. Mixed Zone and Interview Zone

All competition venues will include the Mixed Zone splitted between the Rights Holding Companies and major news agencies and Games News Service, as well as the Interview Zone for all the E-accredited media. After the competition or Medal Ceremony, all athletes will be guided through the Mixed Zone as they leave FoP, but they are not obliged to speak. Team coaches who are normally positioned on FoP may also be asked to pass through the Mixed Zone for interview possibilities.

After passing through the Mixed Zone, athletes will be free to return to the Changing Room or go to Medical/Doping procedures unless they are requested for the Interview Zone interviews.

Press wanting to interview someone in the Interview Zone would make a request to Press Operations who will escort the athlete from the Mixed Zone to the Interview Zone.

By default, all Gold medallists and all Belarusian athletes will be accompanied to the Interview Zone for interviews. Press attaches, DCOs and LANS team members will be able to escort athletes into the Interview Zone, if needed.

The Games News Service team will also proactively request athletes to come to the Interview Zone in order to introduce interesting story angles to the Media. Once in the Interview Zone, the athlete would be interviewed by the member of the press who requested the interview.

There will be no time limit on the length of the interview (within reason) and there will be no guarantee that it would be exclusive, meaning one (1) or two (2) journalists might want to interview the same athlete.

The Interview Zone will be managed by Press Operations to help facilitate introductions or questions, and ensure the Interview Zone remains an informal area and that no media "scrum" is created.

4.4.5. Results Distribution

Competition-related information for all sports, including results reports, will be

available on the Games-time website www.minsk2019.by.

Delivery of printed results information is available only at competition venues and SIC. Selected reports will be available for collection from SID at the Venue and SIC in AVL.

After the completion of all competitions, all results will be compiled in PDF files and will be available for downloading from the Games-time website www.minsk2019.by.

4.4.6. Medal Ceremonies

Medal ceremonies will take place at the Competition Venue as soon as possible after the end of competition with the exception of Athletics.

In Athletics, Medal ceremonies in eight (8) Individual events and the Relay will take place on 24 June 2019 at the Main MINSK 2019 Fan Zone (Pobeditelei Avenue, 4). The Team Medal Ceremony in Athletics will take place at the Competition Venue on 28 June 2019 after the Final.

All Medal ceremonies at MINSK 2019 will occur on or next to FoP. Before each Medal Ceremony all the medallists are gathered in the waiting area accompanied by volunteers. Medal Ceremony staff will be on hand to advise and guide all athletes before, during and after their Medal Ceremony.

All announcements for the Medal Ceremony will be made in two (2) languages – English and Belarusian.

It is the responsibility of each athlete/coach to ensure that the athlete has his/her full outfit with him/her and that it is ready to be worn at the Venue in time for the start of the Medal Ceremony. Failure to adhere to this rule may result in the delay or postponement of the Medal Ceremony.

Medal Ceremony staff will lead athletes to the podium for the Medal Ceremony and advise them with regard to the procedures that the athletes will need to follow.

Flags, signs, mobile phones, cameras, electronic devices, bottles, items of sport equipment, items with political statements, sunglasses, headdresses and EGIAC

will not be allowed on the podium. If any athlete is in possession of any of these items, the latter be handed in to the Medal Ceremonies Manager for the duration of the ceremony.

Similarly, if any items are thrown to athletes while they are on FoP and/or the podium, the athletes must pass them to their Medal Ceremony staff for the Medal Ceremony. Failure to comply with these rules may result in disqualification.

During the Medal Ceremony, in addition to the medals, MEGOC plans to present the winning athletes with a bouquet of flowers.

After the Medal Ceremony, athletes will receive individual medal boxes from the Chiefs of Mission in NOC Services Centre in AVL.

After the national anthem has been played, Gold medallists may ask other winners to join them to share their joy of victory and take a photo together.

After the Medal Ceremony has finished, the athletes step forward to leave the podium and Medal Ceremony staff will lead the athletes to the Mixed Zone.

If any athlete is chosen for Doping Control, he/she will be escorted through the Mixed Zone by a DCO or Doping Control chaperone and will then be chaperoned to DCS.

Medals will be awarded in each event of the competition as follows:

- 3rd place: bronze gilt medal,
- 2nd place: silver gilt medal,

6. THE GAMES AND MINSK

6. THE GAMES AND MINSK

6.1. Accreditation

MEGOC issues an EGIAC to every official participant of MINSK 2019 who was registered in MINSK 2019 Online Accreditation System. The EGIAC establishes the identity of its user, allows access to MINSK 2019 venues and provides privileges according to the participant's role.

Before validation an EGIAC is referred to as a PVC. MEGOC produced and distributed the pre-valid cards (PVCs) for NOCs in May 2019 after receiving signed Accreditation reports.

NOCs are responsible for distributing PVCs to delegation members before they travel to Belarus.

NOC cooperation with this distribution is essential to facilitate the arrivals process and avoid delays due to the reissuing of PVCs after arrival.

Participants should submit at Belarus Border Crossing Points their PVCs and the same documents that were used for registration in MINSK 2019 Online Accreditation System. A PVC will become an EGIAC only after its validation at MINSK 2019 Accreditation Centres.

All participants of MINSK 2019 should provide a valid Identification Document permitting travelling abroad (passport or another substituting document) as follows:

- All accredited members have to travel with passports or other travelling documents valid until at least 11 July 2019;
- The document should be the same that was used to register in MINSK 2019 Online Accreditation System.

The accredited participants will be eligible to multiple visa free entries to the Republic of Belarus from 20 May to 10 July 2019.

6.1.1. Accreditation Facilities

PVCs validation will be available at MINSK 2019 Accreditation Centres.

MSQ will be the main port of entry to Belarus. Athletes, coaches, trainers and other team officials (all individuals with accreditation categories "Aa", "Ac", "Ao" and "ATo") coming by any transport will be able to validate their accreditation at AVL Accreditation Centre.

Members of the EOC Family and dignitaries coming through the MSQ VIP Lounge will be able to validate their PVCs at the MSQ Accreditation Centre.

NOC category participants who will be living at the EOC Family Hotel (EFH), which is the MARRIOTT Hotel, are able to validate their PVCs at the EFH Accreditation Centre.

Other accreditation categories will be able to validate their PVCs at the Uniform Distribution and Accreditation Centre (UDAC).

In order to validate PVCs, participants should present documents permitting travelling abroad that were used during accreditation process at MINSK 2019 Online Accreditation System.

Moreover, competition venues will offer Venue Accreditation Help Offices (VAHOs). The VAHO is a designated and equipped office or space near a competition venue where authorised staff can have their EGIACs reissued if the latter are lost, stolen or damaged.

The table below summarises available accreditation facilities and client groups they serve:

- T-X Transport System.

6.2.1. Games Route Network (GRN)

Venues, AVL and MINSK 2019 official accommodation sites are situated along the routes of four (4) Games transport corridors, i.e. city transport thoroughfares forming GRN together with the Minsk Ring Road (MKAD) and out-of-town highways.

The key principles of the GRN operation are:

6.2.2. Athletes' Transport System (T-AB, T-A)

During MINSK 2019, the T-AB (Airport Bus) transport services will be provided for arrival/departure of athletes and team officials from MSQ to AVL and back. The T-AB services will be carried out on a pre-planned schedule of arrivals and departures.

The T-A System will offer an exclusive, secure and dedicated transport services for athletes and team officials from AVL to competition venues/training sites and back. The T-A transport will run according to the schedule based on the competition and/or training sessions and provide the appropriate level of services required for these client groups.

T-A System privileges are available to "Aa/Ac/Ao" accredited persons.

Accreditation must be displayed at all times to use the services.

For effective use of the T-A Transport System, it is highly recommended that only the client groups directly participating in sports events use it. Spectating athletes and NOC delegations, not involved in sports events, are recommended to use the Hub Bus Transport System (T-B). In AVL, the T-B bus stop is located on Dzierzynski Avenue, near the intersection with Chyurlionis Street.

6.5. The City of Minsk

Minsk is the capital of the Republic of Belarus. It is the largest city in the country populated by two (2) million people or every one in five inhabitants of Belarus. It is the administrative, economic, cultural, scientific and sports centre of the country.

6.5.1. Sights and Sites

Downtown

The historic centre of Minsk still has some majestic temples and monuments. If you want to feel the spirit of the old days, take a walk through the Freedom Square with architectural monuments of the 17-19th centuries stood the test of time, the Trinity and Rakovskoye suburbs, and narrow cobbled streets running in different directions from the historic centre. Every building here is a kind of a chapter of Minsk history.

The Minsk party scene is conveniently centred in the heart of the Old Town. To get a glimpse of the nightlife with its bars, live-music venues and nightclubs visitors should go straight to Zybityskaya Street that transforms into a giant street party on summer weekend nights.

Minsk visitors can enjoy lively bars and clubs to have some fun at night. Food and drinks are reasonably priced. Bars, clubs and discos are open till late in the morning, especially during weekends. Zybetskaya Street is the most famous street of night bars, clubs and discos.

Soviet Sights

Minsk is famous for its Soviet architecture. Many buildings along the Independence Avenue (Praspiekt Niezaliežnasci) are a vivid example of the Soviet times architecture forming an integral ensemble with peculiar style and composition features. The 1950s architectural ensemble is the real gem of the Avenue and a candidate for the UNESCO World Heritage List. Most of Minsk attractions are located if not on the Avenue, then close to it.

Modern Minsk

Over the recent decades, the architectural style of Minsk has considerably changed with the construction of new administrative buildings, business centres, shopping malls, sports and entertainment centres, hotels, restaurants, and cafés.

National library of Belarus and Palace of Independence are among the most impressive buildings that has been constructed in recent decades in Minsk.

Another face of modern Minsk is Oktyabrskaya Street – one of the most popular and fancy places. Former industrial street has become one of the main leisure and party areas of the city. The red brick buildings of the late 19th – early 20th century, decorated with modern paintings, sit side by side with the numerous bars, cafés, exhibition halls, creative studios and workshops and offices.

Museums and Exhibitions

There are more than 20 museums in Minsk. The National Art Museum of Belarus is the cultural treasury of Belarus. The Museum's collection is one of the largest collections in Eastern Europe. There are more than 30,000 exhibits, including masterpieces of Belarusian and foreign art.

The National Historical Museum is among the most visited museums of Belarus. The museum houses the largest collection in Belarus with more than 400,000

items. Be sure to drop by to learn about the history of Belarus through the ages! Study its unique exhibits – valuable documents, early printed books, Slutsk belts, coins and medals, weapons, musical instruments and dinnerware – to trace the historical path of Belarus.

The Belarusian State Museum of the Great Patriotic War History is one of the largest world museums dedicated to World War II. The first items for its collection were picked up as early as 1942. The new building of the museum was opened in 2014 on the 70th anniversary of the liberation of Belarus and now houses more than 8,000 exhibits on 3,000m². The museum is situated on Pobeditelei Avenue near the Minsk-Hero City Stella and the Victory Park.

Theatres

Minsk is home to number of theatres, playhouses and concert halls that present some of the best local and, often, international productions. From world class ballets and musicals to experimental and original works, you will undoubtedly find a theatrical experience that suite your taste at one or more of these Minsk theatres listed below.

The National Academic Bolshoi Opera & Ballet Theatre of the Republic of Belarus is one of Europe's biggest theatres and the architectural landmark of Minsk. The theatre has a truly unique repertoire, made up of about 60 titles of operas and ballets of different epochs and styles. The theatre building makes a strong impression thanks to the perfect symmetry of the park around it, the statues on the pediment and the abundance of marble and crystal inside. It is better to purchase the tickets in advance as for all classical productions they are sold out quite quickly.

Janka Kupała National Academic Theatre has been preserving the best traditions of the Belarusian theatrical art for almost a hundred years, combining them with the search for new solutions and forms. The main place in the repertoire of the theatre is occupied by performances based on the works of Belarusian writers and playwrights. A visit to the Kupała Theatre can be recommended to those who appreciate the tradition, those who are looking for meaning in the theatre and not just entertainment, and to those who want to better understand the national culture.

Parks and Outdoor Activities

One crucial aspect of Minsk spatial organisation is the "Green Diametre" – several often-sprawling parks along the banks of the Svisloch River that cuts through Minsk from north-west to south-east.

The most picturesque parks of Minsk are Janka Kupala Park, with its landscaped paths and sculptures, the Central Children's Park named after Maxim Gorky, Chelyuskintsev Park, Park Complex "Loshitsa", Park Complex "Victory".

The Botanical Garden is worth visiting. It is one of the largest in Europe by total area (about 100ha in the city) and by the richness of the collection, which has more than 10,000 plants from around the world. The greenhouse demonstrates exotic plants typical for different climatic zones of the planet. In the garden you can relax and switch off from the bustle of the city. The main entrance to the garden is from the Independence Avenue.

Minsk is full of places where you can try authentic Belarusian dishes, European and Asian cuisine – ranging from top-notch restaurants to charming casual cafés.

Cosy cafés and restaurants in the Belarusian national style offer a wide range of dishes prepared according to old recipes. Indispensable attributes of all dishes are truly Belarusian products – lard, mushrooms, cranberries and sauerkraut. It is believed that for the Belarusians potato dishes are the most important ones. The most popular is "draniki" – potato pancakes with sour cream.

Menus are available in Russian, Belarusian and English. You can pay by cash or credit card.

Some cafés feature live music in the evenings. Most cafés and restaurants are in the centre of Minsk.
